"Every year, SoCo delivered 500 boxes of Christmas gifts to the underprivileged children through the donation from Box of Hope. The gift not only brings the children daily necessity but also love and joy. The children are so delighted to receive the gifts."

Sze Lai Shan
Community Organiser, Society for
Community Organisation

Box of Hope is a good thing as it brings joy and happiness to children. It makes me smile to be able to give gifts to children who are not as fortunate as us. I love giving the children toys they can play with."

Lucas Bolden
8 years old, Hong Kong
School Student

The Baby Box Initiative

We deliver over 1,000 baby boxes to the charity network in Hong Kong that supports vulnerable parents and their infants.

We know from feedback, that these boxes are cherished by their recipients and go a long way to provide items that some parents may not otherwise have access to.

These boxes contain a good balance between baby care essentials such as milk bottles and cloths, and keepsake items including a blanket and soft toy.

In 2021, 'Hong Kong Crafties', a voluntary organisation, has kindly created hundreds of handmade baby blankets and sensory toys for the baby boxes.

"It has been a delight to be able to offer a Box of Hope to the families with young children that we support. We do not get high quality, new baby items or toys, so what we receive from Box of Hope is greatly appreciated.

The handwritten messages and cards from the children who have packed the boxes were the perfect addition for this incredible gift."
