"Box of Hope were extremely supportive in helping IBEL make the festive period very special for our beneficiary children. Team representatives personally visited us to present gifts and meet the children, a gesture which they were most appreciative of. Thank you Box of Hope!"

Manoj Dhar, Co-founder & CEO  
IBEL HK

"Doing a box of hope makes me feel happy as I get to give a gift to someone that might only get one once a year, or never, yet I'm lucky to be able to have one lots of times a year. It makes me feel grateful and I like imagining how happy they will be when they open their box."

Amy Darracot, Kennedy School,  
Age 10

## Boxes for Teens

2022 was a record year in demand for boxes for teens, totalling half the overall request numbers from our Charity partners. Typically teens are the least well supported group by box donors, given that boxes are mostly received from Primary School children who tend to create a box for a child of comparable age.

Supported by a number of Hong Kong corporates and Secondary Schools, we were able to fulfil local demand for these boxes, and work with our overseas Charity partners on reassigning their age band requests.

We know with certainty that the Teenage recipient group will continue to grow, therefore priority must be to increase to our reach to Secondary Schools and increase box donation numbers.

We've been delighted to be supported by many local business with donations in kind. Local stationers, Wah Yuen Co Ltd, have donated sets of pencils, pens and crayons for many years, that make perfect content for our teen boxes.

"While packing the boxes had filled me with a sense of pride, to be able to help someone with just a fraction of my time and money, box checking was a humbling experience that reminded me that just like each child who will receive a gift from a stranger this festive season, we all thrive in environments of love and empathy."

Milchelle Ko, Clifford Chance HK
